DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 – 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Duynslager et al (U.S. Patent No. 5,769,267).

With regard to Claims 1 – 3 and 5 – 6, Duynslager et al disclose a capsule which is manufactured by injection molding (column 10, line 13), therefore an injection – molded capsule container, for delivering a water – destined ingredient (disintegrates in a digestive tract, therefore contents are released into a digestive tract, therefore an aqueous environment and destination cite; column 10, lines 7 – 10) comprising a biocide and antibacterial composition (bactericide; column 10, line 21) wherein the container comprises gelatin and polyvinyl alcohol (column 10, lines 18 – 19), therefore polyvinyl alcohol and a material other than polyvinyl alcohol, that will dissolve at an intended aqueous destination site (disintegrates in a digestive tract, as stated above, therefore both gelatin and polyvinyl alcohol disintegrate and therefore dissolve).

With regard to Claim 4, the capsule is cylindrical (column 6, line 29), and is therefore an elongate tubular package, and has a closed rounded end as shown in Figure
